

"My son emerges from camp with his heart full, and he's brimming with observations and stories from nature..."

– Kim Scanlon

"The kids learn to be in nature with others - they're outside in the world's most important classroom with skilled and wonderful adult guides - this is a fantastic program."

– Debbie Carlson

Summer Day Camps (Ages 4-12)

Nature Adventure Day Camps (Ages 6-12)

Since 1995, our summer day camps have provided nature adventures for children. They work together in small groups gaining nature awareness and experiential knowledge of plants, mammals, tracking, birds and survival. Through storytelling and engaging nature activities, tangible and intangible skills are woven into each of our camps, which nurture students' connection to the earth and build skills that will serve them for a lifetime.

The Art of Nature Day Camp (Ages 8-12)

Campers spend the week exploring their inner creativity by working on a variety of art projects inspired by the natural world around them. Activities include creative projects that stimulate inspiration and basic instruction on some artistic principles, as well as our classic summer camp games and adventures!

Overnight Camps (Ages 11-17)

Overnight camps give students exciting camping experiences while learning in-depth skills of survival and nature awareness. They last five days and are filled with outdoor adventures for all experience levels in the forested foothills of the Cascade Mountains.

Scout Awareness Overnight (Ages 11-14)

A camp devoted to developing the keen awareness of the ancient scouts of many cultures whose abilities seemed like magic. Through adventures with camouflage, "bird language" (to discover the movement of predators), wildlife and human tracking, stealthy movement, and uses of wild edible plants, we enter the world of the scout. Participants in this camp will likely never see nature the same way again!

Survival Skills Overnight (Ages 11-14)

This camp is focused on learning wilderness survival basics and practicing them daily. Students will have opportunities to practice fire making, knife-safety and carving, shelter construction, and primitive cooking, and may choose to create their own fire kit and spoon or bowl to take home! Students will have the opportunity to sleep in shelters they have constructed and will bring home amazing stories.

Advanced Survival Overnight (Ages 14-17)

This camp adds to the skills and experience of our Survival Overnight Camp, or as a first experience for older teens who have not previously participated in our programs. Students continue practicing knife work, fire-making, primitive cooking and many other skills. Camp size is smaller than other overnights, allowing participants to grow even closer to the community they help to build.

VOLUNTEER OPPORTUNITIES

Teen Wolf Tracking

(Ages 13-18)

Join us in the wild backcountry of Idaho as we search for tracks and sign of the elusive wolf and other amazing wildlife! As teens on this adventure explore the rivers, forests, and mountains guided by our most experienced instructors, opportunities for wildlife watching abound.

The beginning week is for new trackers as well as returning students who are primarily interested in the variety of adventures to be had in the Idaho backcountry. The advanced week is for returning students to Idaho who are seeking a more focused study of wildlife tracking and are ready to push themselves to hone their skills in these areas. Students are picked up in Boise, Idaho and driven by van to our basecamp.

Skills Day Camps

(Ages 10-12)

SCOUT AWARENESS DAY CAMP focuses on using our senses to the fullest, as did the ancient "scouts" of many cultures who would travel for days without supplies. We will gain knowledge of plants as food and medicine; tracking to learn about the animals' lives without seeing them; and "bird language" to move silently and become more aware of predators.

SURVIVAL SKILLS DAY CAMP is an extremely hands-on camp that includes the skills of fire making, open-fire cooking, shelter building, and craft and tool making. Outdoor knife safety is also covered.
